

DED CONTROL PROGRAM APPLICATION FORM

The Town of Walseley has implemented a new Dutch Elm Disease (DED) prevention and control program.

Part of the program includes pest management through pesticide spraying of privately-owned elms following the receipt of written authorization from the property owner.

Fill out the form below if you are interested in having your elms sprayed as part of the FREE program.

COMMENTS OR INQUIRIES

By consenting to this program, you authorize the Town of Walseley or its Contractor to enter your property to identify and mark privately owned elm trees and to spray the pesticide Pyrate 480 EC on the property.

When applied safely and correctly, Pyrate 480 EC can be an effective tool in preventing the spread of Dutch Elm Disease. By signing below, you consent to understanding children and pets should be kept away from flagged trees for a period of 24-hours.

I authorize the Town of Walseley or its Contractor to enter my property and basal spray any elm trees for the control of Dutch Elm Disease.
