

PUBLIC NOTICE – ELM TREE SPRAYING

Town of Wolseley Friday, August 27

The Town of Wolseley would like to let residents know that **elm tree spraying is taking place today, Friday, August 27 and includes private and public elm trees.** The Contractor will begin in the **northeast corner of Town** and work **west throughout the day.**

If **people and or pets are in the area**, or a **backyard gate is locked**, the trees will be skipped.

Why this work is important:

Spraying helps keep our elm trees healthy by reducing insect activity and supporting the long-term care of our urban forest.

We kindly ask residents to:

- Avoid work areas while crews are spraying.
- Close windows if spraying is happening nearby.
- Move vehicles or items that may block access to boulevards.
- Keep pets indoors or away from the work zone until crews have passed.

Safety Information: The product used typically takes **5–10 minutes to dry**, and **once dry, the area is safe.** The **Safety Data Sheet (SDS)** for the product is available at the Town Office for anyone wishing to review it.

Thank you for your patience and cooperation as we complete this seasonal maintenance.
